

Acta N.º2

On the 6th of October 2008, the Scientific Committee responsible for the selection of the Ocular Imaging Research Position, after evaluation of the application sent within the scope of Programa Ciência2008 (C2008-Ref. C2008/IBILI/CO/P2) agreed on the following criteria application for candidate selection (following the quantitative formula defined in Acta 1 of the 10th August 2008):

In accordance with the criteria of scientific excellence, and in accordance with FCT directives, it was agreed that the only candidate, Pedro Serranho should be admitted to the evaluation procedure because of his excellent curriculum and 6 years of research experience in high level Institutions. He also has publications in top level Journals in Applied Mathematics and Physics that are relevant to Reconstruction Methods and Imaging.

The candidate was classified as follows:

- A. Publication record – 4.3 points
- B. Expertise in mathematical techniques applicable to image analysis – 4.7 points
- C. A proven background in Matlab implementation of numerical methods – 4.7 points

His Final Score $(A+B+C)/3$ according to Acta 1, was 4,56.

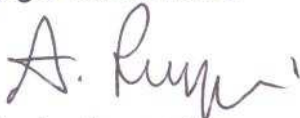

The Selection Committee decided that the Position should be offered to this applicant.
