**SLOVAKIA**

**Short description of the country:**

The Slovak Republic, as a part of Middle Europe, is situated between Austria, Czech, Poland, Ukraine and Hungary. Mountains are the national treasure of the country. The highest point is Gerlachovský štít, 2,655 m (8,685 ft) above sea level. Bratislava, the capital, lies just in the south-west of Slovakia, 200 m above sea level. Mild continental climate with four alternating seasons is characteristic for the Slovak Republic. Summer tends to be sunny and quite hot; winter is usually very cold; the weather during spring and autumn is rather mild but changeable.

**Slovakia’s tourism:**

Slovakia’s tourism industry has grown remarkably since independence. By the late 1990s the country was receiving more than 500,000 visitors each year. Slovakia’s historic towns and numerous mountain ski resorts are the more popular tourist destinations. Quiet and jovial with a surprisingly rich cultural life, Bratislava is a capital city without the usual congestion. The High Tatras are a magnificent range of mountains dotted with villages with deep peasant traditions. You’ll find Slovaks to be an extremely helpful, pleasant people prepared to go out of their way to welcome you. From folk festivals, to castle tours to snow boarding and hiking you’ll find Slovakia a spectacular country to visit.
