

IV INTERNATIONAL CONGRESS ON RISKS

“Risks and Education”

23th to 26th of May of 2017
University of Coimbra
Portugal

Certification:

- The Congress is accredited by the ENB as training action for firefighters to be registered in the RNBP;;
- It was requested the accreditation of the Congress, by the Scientific and Pedagogical Council of Continuous Training, as Training Action for Teachers, in the teaching area.

The IV International Congress on Risks focuses on the following five thematic areas:

Panel 1 - Education for risk reduction, risk awareness, perception of danger and culture of safety;;

Panel 2 - Risk theory: methodology, conceptualisation and epistemology;;

Panel 3 - Risk analysis and management: potentially dangerous processes (natural and anthropogenic) and vulnerabilities;

Panel 4 - Prediction, prevention and mitigation of consequences from disasters;

Panel 5 - Case studies of full events (serious accidents and catastrophes) of natural, man-made (technological and social) and mixed hazards (environmental).
