**Synopsis:**

The IPCDVS is a R&D unit of the University of Coimbra, founded in 1994, integrated within the Instituto de Investigação Interdisciplinar (III) of this University, with grant of the Portuguese Foundation for Science and Technology (Unit 192-Good-2007). This unit integrates today a large team of national and international researchers from different public and private institutions.

Since its foundation, at IPCDVS a transdisciplinary dynamic is being stimulated, where core fields of psychology are integrated, as follows: experimental, cognitive, educational, clinical and health, social, and counseling.
