Placement Optimization Internship (M/F) Amazon European Supply Chain Control and Analytics

JOB DESCRIPTION

The Amazon European Supply Chain Control and Analytics team is a growing and international team and we are looking for a talented, smart and enthusiastic Supply Chain Operations Intern to work with us on innovating and improving our processes on behalf of our Customers in EU.

This is a 6 months internship aimed at 3+ year university students or recent university graduates. An Amazon internship will provide you with an unforgettable working experience in a fast-paced, dynamic and international environment; it will boost your resume and will make you stand out as a candidate in all your future job searches.

The Supply Chain Intern (m/f) is a passionate advocate to drive operational efficiency with analytical and strong inter-personal skills. The Supply Chain Intern must be an effective communicator and be able to work with cross-functional teams including Fulfillment Center Operations, Buyers and Senior Management.

BASIC QUALIFICATIONS

- University student (3 years +) or recent graduate Engineering, Mathematics or Computer Science.
- Excellent analytical skills.
- You are able to demonstrate strong interpersonal skills, great autonomy and curiosity, which you'll need to be successful to achieve your learning and development goals.
- Attention to detail, ability to do in-depth data mining, methodical approach to work.
- Problem Solving, issue resolution skills and ability to manage multiple priorities.
- Fluent English, excellent knowledge of Excel is a pre-requisite

PREFERRED QUALIFICATIONS

- Previous work / academic experience abroad is a plus.
- Knowledge of optimization software (e.g. FICO Xpress) / SQL / R / is a plus
