### 2. Acknowledgments

Commemorating the fifth anniversary of the Academic Orchestra of University of Coimbra, the Organizing Committee would like to express its gratitude to all those who, in some way, contributed to the success of this journey that started five years ago.

We are grateful:

- to Tuna Académica of the University of Coimbra, for being the *alma mater* since the foundation of OAUC;
- to the Rectory of University of Coimbra, for their trust and support over the last 5 years;
- to all the OAUC's partner entities: Câmara Municipal de Coimbra, Instituto Português do Desporto e Juventude, to Santander Universidades and Ministério da Cultura, the institutional partner that made releasing this CD possible;
- to the Teatro Académico Gil Vicente, for their close relationship with the successive Organizing Committees in hosting the OAUC concerts;
- to André Granjo, a key for the good functioning of the orchestra and an example of versatility and resilience;
- to Leandro Alves, for his demonstrated availability and performance;
- to our sectional rehearsal professors who contributed to the success of each concert;
- to the various Organizing Committees of the Orchestra, whose members, over the years, have dedicated and still dedicate a large part of their academic experience to the OAUC project;
- to Coro Misto da Universidade de Coimbra (CMUC) and Orfeon Académico de Coimbra for their direct collaboration in OAUC concerts, and logistical collaboration, through the provision of their rehearsal rooms for conducting rehearsals by the Orchestra, a gesture for which we also thank Grupo de

Etnografia e Folclore da Academia de Coimbra (GEFAC), Círculo de Iniciação Teatral da Academia de Coimbra (CITAC) and Teatro dos Estudantes da Universidade de Coimbra (TEUC);

- to the União Filarmónica do Troviscal, the Escola de Artes da Bairrada and the Filarmónica União Taveirense, for the logistical support provided on several occasions, in the form of loaning instruments and other materials necessary for the realization of the OAUC concerts;
- to AvA Musical Editions for their availability and openness in sheet music rental;
- and last, but not least, to all the musicians who played in this orchestra. Their commitment and love of music are the indispensable elements for this project's prosperity.

### **3. Five years of OAUC - a luster that illustrates the UC**

Founded in 2016, as part of a collaboration between the Rectorry and TAUC, OAUC has just completed five years of existence, thus celebrating its first 'luster'. Throughout this period, the orchestra drew an artistic path marked by quality and by a remarkable balance between the musical tradition, which necessarily characterizes a symphony orchestra, and the ability to innovate. The OAUC 'illustrates' the UC in this way, because it contributes to improving the institution to which it belongs and because it also exemplifies the same relationship between tradition and continuous innovation that marks and distinguishes a century-old University.

Throughout this 'luster', the OAUC has also been a privileged space for conviviality and collaboration between all the living forces of the Academy. Not only among current and former UC students, national and foreign, but also involving the institution's teaching and technical staff in this openness to the passion for symphonic music.

The artistic activity of the OAUC closely follows some of the most symbolic moments of the UC, such as the concerts presented at the opening of each school year and on University Day (March 1), at the opening of each Cultural Week. The CD that is now being released reflects the artistic refinement and aesthetic innovation with which the OAUC sought to mark its involvement in these acts of strong institutional relevance, with the rigor and commitment that these contexts call for.

Finally, I wish the OAUC to celebrate many more 'glories' of existence and that each one of them continues to 'illustrate' the vigor of the living and creative energies that constitute an institution of international reference.

Amílcar Falcão  
Rector of the University of Coimbra

### **4. About UC**

The University of Coimbra is an internationally recognized higher education institution with centuries of experience in teaching, training, and research. Founded in 1290, it was the first and only Portuguese-speaking university until the beginning of the 20th century, affirming its position with an unique presence that brings together tradition, modernity and innovation, which resulted in its classification as a world heritage site by UNESCO in 2013.

At the time of its creation, under the authority of King D. Dinis, the General Study began to operate in Lisbon, being definitively transferred to Coimbra in 1537, by order of King D. João III, after a period of migration between these two cities.

Initially confined to the Royal Palace, the University was extended to Coimbra, changing its landscape and turning the city into the city of students. In the 20th century, the university expanded with the creation of Pole II, dedicated to engineering and technologies, and already in this century with a third Pole, in the area of health sciences.

Today, the University of Coimbra is composed of eight Faculties (Arts and Humanities, Law, Medicine, Sciences and Technology, Pharmacy, Economics, Psychology and Educational Sciences, Sports Science and Physical Education) and more than 22 thousand students.

Studying at the University of Coimbra is to continue the history of the country's intellectual matrix, which formed some of the most outstanding personalities of culture, science, and national politics.

## **5. About OAUC**

Orquestra Académica da Universidade de Coimbra (OAUC) was founded in 2016 as a result of a partnership between the University of Coimbra (UC) and Tuna Académica da UC, with the main objective of providing students, former students, professors, teachers, and future students of the UC and of other higher education institutions in Coimbra a space for the performance of amateur symphonic music. It also aims to spread the image of the University itself, both internally and externally, playing an important role in various solemn events linked to the UC.

Since its inception, one of the main goals of the OAUC has been the exploration and dissemination of classical music written by Portuguese composers. The orchestra has interpreted pieces by great composers such as Joly Braga Santos, David Souza, and Francisco Lacerda but also by, in an unprecedented way, Armando José Fernandes and António Xavier Monteiro. Furthermore, the orchestra premiered three works: Little Overture, by Carlos Firmino, Universis, by Luís Cardoso, and O Lado Oculto da Lua, by David Miguel.

This year marks the first commemorative event of the OAUC, its first 5 years. After 15 main concerts, the success of the OAUC project is remarkable and has created a legacy on the cultural space of the University of Coimbra and the region.
