

## Creating a Better World: Incorporating the Sustainable Development Goals in Social Sciences

### The Fifth Annual Haifa International Social Sciences Interdisciplinary Conference for Graduate Students

**June 14th, 2023 - via Zoom**

The [Sustainable Development Goals \(SDGs\)](#), adopted by world leaders at the UN General Assembly, call to find solutions for urgent **social, economic, and environmental** challenges around the world. At the heart of the SDG is the recognition that "ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests".

The 5th Annual Haifa International Social Sciences Conference seeks studies exploring these societal challenges, offering implications concerning their manifestation and solutions.

We welcome submissions that show a **contribution** related to the **achievement of one or more of the 17 goals**, or to one or more of their 169 sub-targets, from the following social science disciplines: political science, psychology, neuroscience, economics, geography and environmental studies, computer and data sciences, communications and media, business administration, sociology, social work, anthropology, law, criminology, and statistics.

The conference will be held online via an online communication platform (Zoom). Each session will be conducted in a parallel panel format **composed of 15 minutes presentations** followed by a Q&A. **Please note that the conference will be held in English.** Only submissions with findings (preliminary or otherwise) will be considered.

#### **SUBMISSION**

You are invited to submit your abstract via [this form](#).

Workshops and panels will be thematically defined based on the accepted abstracts and will be published before the conference.

#### Submission requirements:

Abstract of up to 400 words (no less than 250 words) describing your research. Abstracts should be composed of the following: introduction, intended contribution, methodology, findings, and discussion. Cash prizes will be awarded to outstanding papers.

Please do not hesitate to contact us at our [website](#).

**Submission Deadline: March 12th, 2023**

**Accepted participants will be notified by May 12th, 2023**
