

2016 Summer School in Computational Biology

From Molecules to Tissues

Coimbra, 5th – 15th September 2016

An initiative of Computational Biology @ UC

An introductory course targeted to students from M.Sc. to post-doctoral levels, featuring

- Introductory lectures on Mathematics, Physics and Biology tailored to complement each student's background;
- Courses on specialized Computational Biology topics;
- Seminars on recent developments;
- Mini-research projects where the students will have opportunity to apply the acquired skills to realistic research problems.

Illustrative applications will emphasize ageing and degenerative diseases.
